TROPICAL CYCLONE WIND SIGNALS IN EFFECT

No Tropical Cyclone Wind Signal is currently in effect

TROPICAL CYCLONE BULLETIN NO. 13

Tropical Depression “LANNIE”

Issued at 11:00 PM, 05 October 2021

Valid for broadcast until the next bulletin at 5:00 AM tomorrow

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall</p> <ul style="list-style-type: none"> • Today through tomorrow evening, moderate to heavy rains are still likely over Palawan. • Under these conditions, isolated to scattered flooding (including flash floods) and rain-induced landslides are still likely especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps <p>Severe Winds</p> <ul style="list-style-type: none"> • In the next 24 hours, the enhanced easterlies while bring occasional gusts reaching near gale to at times gale force in strength over Extreme Northern Luzon, while the enhanced southwesterlies will bring the same conditions over the coastal and upland/mountain areas along the western section of Central and Southern Luzon.
HAZARDS AFFECTING COASTAL WATERS
<ul style="list-style-type: none"> • Due to the hazardous sea conditions brought about by the tropical depression and the enhanced easterlies and southwesterlies, a Gale Warning is currently in effect over the seaboard of Northern Luzon and the western seaboard of Southern Luzon. For more information, refer to Gale Warning #2 issued at 5:00 PM today. • Moderate to rough seas will prevail over the remaining western seaboard of Luzon and the eastern seaboard of the country. These conditions are risky for those using small seacrafts. Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.
TRACK AND INTENSITY OUTLOOK
<p>Tropical Depression “LANNIE” is forecast to continue moving west northwestward over the West Philippine Sea and will likely exit the Philippine Area of Responsibility (PAR) tomorrow morning. For the next 24 hours, “LANNIE” will remain as a tropical depression, although slight intensification is possible by tomorrow afternoon or evening.</p>

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
